PROFESSIONAL SUMMARY

Motivated Information Technology undergraduate with hands-on experience in full-stack web development, REST API development, database management, and responsive UI design. Skilled in React.js, Node.js, Express.js, MongoDB, Firebase, JavaScript, Java, and Git. Developed multiple academic and personal projects, including AI-based analysis systems, job portal applications, and enterprise workflow management platforms. Seeking a Software Engineering or MERN Stack internship to apply technical skills, gain industry experience, and contribute to real-world software projects.

EDUCATION

BSc (Hons) in Information Technology 2024 – Present
Sri Lanka Institute of Information Technology (SLIIT)

G.C.E. Advanced Level 2021 – 2023
Hindu College National School
Stream: Engineering Technology, Science for Technology, and Information and Communication Technology

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Java
- **Frontend:** React.js, Vite, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Spring Boot
- **Databases:** MongoDB, MongoDB Atlas, MySQL, Firebase Firestore
- **Tools and Platforms:** Git, GitHub, VS Code, Postman
- **Deployment:** Vercel, Netlify, Render
- **Concepts:** REST APIs, CRUD Operations, JWT Authentication, Role-Based Access Control, Object-Oriented Programming, Responsive Web Design

PROJECTS

HairScope AI – AI Hair Loss Analyzer and Progress Tracker

React.js, Node.js, Express.js, MongoDB, Firebase, TensorFlow.js

- Developed a full-stack AI-powered web application to analyze hair loss, estimate Norwood stages, and track hair progress over time.
- Implemented JWT authentication, Firebase image uploads, and MongoDB Atlas for storing user profiles and analysis history.
- Built interactive dashboards with progress tracking, photo comparison, and personalized hair-care recommendations.
- Designed a responsive SaaS-style interface using React.js, Tailwind CSS, and Recharts.

AI-Powered Job Portal Web Application

React.js, Node.js, Express.js, Firebase

- Developed a job portal where users can create profiles, upload resumes, search for jobs, and apply for vacancies.
- Implemented Firebase Authentication, Firestore, and role-based access for job seekers and administrators.
- Built an admin dashboard to manage job postings, candidate applications, and user accounts.
- Created a responsive interface using React.js, Vite, and Tailwind CSS, with deployment on Vercel and Render.

FlowWise AI – Intelligent Employee Workflow and HR Management System

React.js, Node.js, Express.js, MongoDB

- Engineered an enterprise HR and workflow management platform using the MERN stack.
- Implemented JWT authentication, refresh tokens, and role-based access control for Employee, Manager, HR, and Admin users.
- Developed modules for employee management, leave requests, expenses, assets, HR requests, and multi-level approval workflows.
- Designed responsive role-based dashboards with real-time notifications, analytics charts, search, filters, and workflow tracking.

CERTIFICATIONS

- End-to-End SQL Database Design and Optimization Project – LinkedIn Learning
- MongoDB Basics – MongoDB University / LinkedIn Learning
- Java Programming – LinkedIn Learning
